

All I Know

(MUSIC: Sebastian Leitner
WORDS: Gerd Hoch)

Please don't you ask me questions, I don't wanna lie.
If you like that what I'm doing, shut your eyes.

Hey, What can I say? You know some things should be unspoken.
But one of these days I know even your pride's getting broken.

But all I know is one day you're getting older and then you will
come to see... All I can tell you is what I've always told you:
Make it your way but let me make it mine.

Don't you think what's right for you must just be right for me.
Sure, I am crazy but it's just as it's meant to be.

You know what I mean... There's much too much words that's been spoken.
But it remains to be seen who it is about everybody's jokin'.

But all I know is one day you're getting older and then you will
come to see... All I can tell you is what I've always told you:
Make it your way but let me make it mine.

Hey, What can I say? You know some things should be unspoken.
But one of these days I know even your pride's getting broken.

But all I know is one day you're getting older and then you will
come to see... I'll tell you still the same what I always told you:
Make it your way but let me make it mine.

Let me make it mine.
